TASK GLOVES

Task Gloves is a vertically integrated manufacturer with a dedication to providing premium quality hand protection. We commit to producing products that exemplify fine craftsmanship while using the latest technological and material innovations. Our products range from traditional work gloves to advanced coated, cut, heat, cold, chemical, and impact protection.

With an experienced sales and operations team that are responsive in finding a solution for your hand protection needs, Task Gloves can be a trusted partner for direct import and private label programs. Our goal is finding the perfect hand protection for all our customers.

American National Standard for Hand Protection Classification

ANSI/ISEA 105-2016 addresses the classification and testing of hand protection for specific performance properties related to chemical and industrial applications. This standard provides performance ranges for related to mechanical protection (cut-resistance, puncture resistance and abrasion resistance), chemical protection (permeation resistance, degradation) and other performance characteristics such as ignition resistance and vibration reductions based on standardized test methods.

Old ANSI Cut-Resistant Levels (Grams)	1 (200)	2 (500)	3 (1000)	4 (1500)	5 (3500)
---------------------------------------	---------	---------	----------	----------	----------

New ANSI Cut Resistant Levels (Grams)									
	A1 Light cut hazards (200)	A2 Light/Medium cut hazards (500)	A3 Light/Medium cut hazards (1000)	A4 Medium cut hazard (1500)	A5 Medium/Heavy cut hazards (2200)	A6 High cut hazards (3000)	A7 High cut hazards (4000)	A8 High cut hazards (5000)	A9 High cut hazards (6000)

Applications by Cut Level

Material handling, small parts assembly (sharp edges), packaging, warehouse, general purpose, forestry and construction.	
Material handling, small parts assembly (sharp edges), packaging, warehouse, general purpose, forestry, construction, pulp ad paper and automotive assembly.	 
Appliance manufacturing, bottle and light glass handling, canning, drywall work, electrical, carpet installation, HVAC, pulp add paper, automotive assembly, metal fabrication and handling, packaging, warehouse, aerospace industry and food prep/processing.	 
Metal stamping, metal recycling, pulp and paper (changing slitter blades), automotive assembly, metal fabrication, sharp metal stampings, glass manufacturing, window manufacturing, recycling paint/sorting, HVAC, food prep/processing, meat processing, aerospace industry.	   

European EN388 (CE)

EN388 standards reports 2 cut levels which are based on two different methods: Coup Test and ISO 13997 (TDM-100)

The first cut level is based on the Coup Test. The Coup Test uses a circular blade which travels back and forth under 500 grams of weight until cut is made through sample tested. Cut levels are reported on a 1-5 scale.

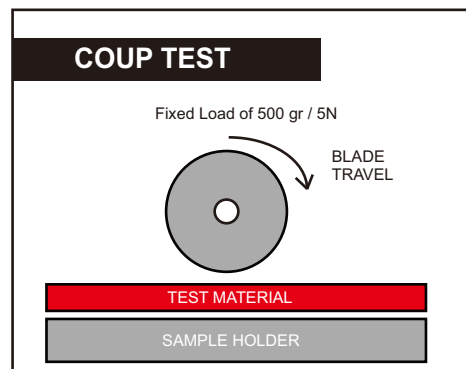

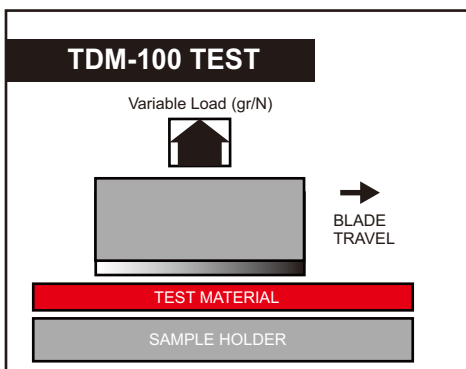

The ISO 13997 is the second test EN388 standards reports. The incorporation of the ISO 13997 is due to the Coup Tests inconsistencies with high cut resistant materials. The ISO 13997 uses the TDM-100 test method which uses a straight razor blade under variable weight to measure cut resistance. As each cut is made, the blade is changed and weight is added resulting in more accurate readings. Readings are measured in newtons and reported in levels A-F (2-30 newtons).

CUT RESISTANT

Aramid Knit with Two-Sided PVC Dots

Application: Metal Fabrication, Recycling, Paper Processing, Automotive and Glass Handling

Description:

- ANSI cut level A4
- 7 Gauge seamless knit Aramid fiber shell
- Cotton/Poly knitted lining
- Ambidextrous
- Two-sided PVC dots for enhanced grip
- Excellent cut resistance
- Light heat protection

Item#	Color	Size	Qty/Cs
BT1001	Liner: Yellow Palm: Black	Men's	12 Dozen

HDPE Shell, Polyurethane Coated Palm

Application: Metal Fabrication, Recycling, Paper Processing, Automotive and Glass Handling

Description:

- ANSI cut level A2
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- PU coated palm
- Excellent cut resistance and dexterity
- Superior grip and durability
- *BT2001

Item#	Color	Size	Qty/Cs
CM26230	Liner: Gray Palm: Gray	S-XL	10 Dozen

CUT RESISTANT

EN 388 ANSI
4X42D CUT A4

HDPE Shell, Polyurethane Coated Palm

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work and General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- PU coated palm
- Excellent cut resistance & dexterity
- Superior grip and durability
- *BT2002

EN 388 ANSI
4X42D CUT A4

13G HDPE Blended Knit Liner Sandy-Foam Nitrile Palm Coated Gloves

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Machine Operation, and General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Double dipped palm
- Sandy-foam nitrile over flat nitrile coated palm
- Excellent cut resistance & dexterity
- Superior grip and durability

Item#	Color	Size	Qty/Cs
CM43230	Liner: Gray Palm: Black	S-2XL	10 Dozen

CUT RESISTANT

13G Hi-Vis Yellow HDPE Blended Knit Liner Foam Nitrile Palm Coated Gloves

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Machine Operation, and General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber hi vis yellow shell
- Hi vis orange foam nitrile coated palm
- Excellent cut resistance & dexterity
- Superior grip and durability

Item#	Color	Size	Qty/Cs
CM44230HV	Liner: Yellow Palm: Orange	S-2XL	6 Dozen

HDPE Shell, Aramid Sewn with Split Cowhide Palm, Extended Cuff

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Recycling, General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Aramid thread sewn
- Split cowhide leather palm with reinforced crotch between thumb and forefinger
- Extended knit wrist cuff for forearm protection
- PU coated fingers provide flexibility and dexterity for handling small parts
- Intermittent heat contact up to 200°F/100°C
- Excellent cut and abrasion resistance

Item#	Color	Size	Qty/Cs
BT2011	Liner: Orange Palm: Gray	S-XL	4 Dozen

CUT RESISTANT

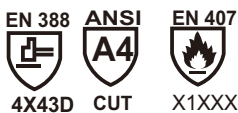

HDPE Shell, Aramid Sewn with Split Cowhide Palm & Fingers, Extended Cuff

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Recycling, General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Aramid thread sewn
- Split cowhide leather palm with reinforced crotch between thumb and forefinger
- Extended knit wrist cuff for forearm protection
- Intermittent heat contact up to 200°F/100°C
- Excellent cut and abrasion resistance

Item#	Color	Size	Qty/Cs
BT2008	Liner: Orange	S-XL	4 Dozen
	Palm: Gray		

HDPE Shell, Aramid Sewn with Split Cowhide Palm & Fingers, Neoprene Cuff

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Recycling, General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Aramid thread sewn
- Split cowhide leather palm with reinforced crotch between thumb and forefinger
- 3 ½" neoprene cuff
- Intermittent heat contact up to 200°F/100°C (Excludes Cuff)
- Excellent cut and abrasion resistance

Item#	Color	Size	Qty/Cs
BT2007	Liner: Orange	S-XL	4 Dozen
	Palm: Gray		

CUT RESISTANT

HDPE Shell, Waterbased Polymer Coated Palm

Application: Automotive, Construction, General Maintenance, Parts Assembly, Warehouse, Food Processing and Handling

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Water-based polymer coated palm
- Excellent cut resistance & dexterity
- Superior grip & durability
- Safe for food handling

Item#	Color	Size	Qty/Cs
OT2003	Liner: Gray Palm: Black	S-2XL	6 Dozen

Turnbull™ Shell, Revo Tek® Coated Palm

Application: Metal Fabrication, Recycling, Paper Processing, Automotive, Glass Handling

Description:

- ANSI cut level A4
- 13 Gauge high elasticity seamless knit Turnbull™ fiber shell
- Revo Tek® coated palm
- Light weight and high tensile
- Excellent cut resistance & dexterity
- Superior grip & durability
- No glass fiber

Item#	Color	Size	Qty/Cs
VSP44150	Liner: Gray Palm: Black	S-2XL	6 Dozen

CUT RESISTANT

Turnbull™ Shell, Polyurethane Coated Palm

Application: Metal Fabrication, Recycling, Paper Processing, Automotive, Glass Handling

Description:

- ANSI cut level A4
- 13 Gauge seamless knit Turnbull™ fiber shell
- PU coated palm
- Light weight and high tensity
- Excellent cut resistance & dexterity
- Superior grip & durability
- No fiberglass

Item#	Color	Size	Qty/Cs
VSP47150	Liner: Gray Palm: Gray	S-2XL	12 Dozen

HDPE Shell, Polyurethane Coated Palm

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Construction, HVAC and General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- PU coated palm
- Excellent cut resistance & dexterity
- Superior grip & durability
- No fiberglass

Item#	Color	Size	Qty/Cs
BT2014PU	Liner: Gray Palm: Gray	S -XL	6 Dozen

CUT RESISTANT

HDPE Shell, Fully Coated Nitrile with Black Sandy Nitrile Palm

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Construction, and General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Double dipped: black sandy finish palm dipped over fully coated blue nitrile for water and oil proof protection
- Excellent cut resistance
- Superior grip
- No fiberglass

Item#	Color	Size	Qty/Cs
BT2013NF	Liner: Blue Palm: Black	S-2XL	6 Dozen

HDPE Shell, Double Dipped Nitrile Palm with Black Sandy Nitrile Palm

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Construction and General Maintenance

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Double dipped: black sandy finish palm dipped over palm coated nitrile
- Excellent cut resistance
- Superior grip in wet and oily applications
- No fiberglass

Item#	Color	Size	Qty/Cs
BT2013NP	Liner: Gray Palm: Black	S-2XL	6 Dozen

CUT RESISTANT

HDPE Shell, Double Dipped Nitrile Palm, Black Sandy Nitrile Palm

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Construction, HVAC and General Maintenance

Description:

- ANSI cut level A6
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Double dipped: black sandy finish palm dipped over palm coated nitrile
- Excellent cut resistance
- Superior grip in wet and oily application
- No fiberglass

Item#	Color	Size	Qty/Cs
BT2015NP	Liner: Blue Palm: Black	S-2XL	6 Dozen

HDPE Shell, Polyurethane Coated Palm

Application: Automotive, Parts Assembly, Glass Handling, Sheet Metal Work, Construction, HVAC and General Maintenance

Description:

- ANSI cut level A6
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- PU coated palm
- Excellent cut resistance & dexterity
- Superior grip & durability
- No fiberglass

IMPACT

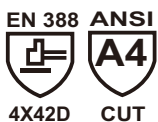

HDPE Shell, Sandy Nitrile Palm with EVA Palm Padding

Application: Oil & Gas, Mining, Demolition, Construction and Trench Work

Description:

- ANSI cut level A4
- 13 Gauge seamless knit high-density polyethylene (HDPE) fiber shell
- Sandy nitrile palm coating
- EVA palm padding to minimize vibration
- Thermoplastic Rubber (TPR) on back of hand and fingers for impact protection
- Gray nitrile reinforced crotch between thumb and forefinger
- Hook and loop closure
- Excellent cut resistance & dexterity
- Superior grip in wet and dry applications

Black Micro-Foam Nitrile Coated Palm and Knuckle with Nitrile Dots

Application: Automotive, Construction, General Maintenance, Parts Assembly and Warehouse

Description:

- 15 Gauge seamless knit
- 3/4 Black micro-foam nitrile coated palm and knuckle with nitrile dots
- Excellent abrasion protection & dexterity
- Superior grip & durability

Item#	Color	Size	Qty/Cs
OT1042	Liner: Gray Palm: Black	S-2XL	6 Dozen

Waterbased Polymer Coated Palm

Application: Automotive, Construction, General Maintenance, Parts Assembly, Warehouse, Food Processing and Handling

Description:

- 15 Gauge seamless knit
- Water-based polymer coated palm
- Excellent abrasion protection & dexterity
- Superior grip & durability
- Safe for food handling

Item#	Color	Size	Qty/Cs
OT2001	Liner: Gray Palm: Black	S-XL	12 Dozen

Black Micro-Foam Nitrile Coated Palm and Knuckle

Application: Automotive, Construction, General Maintenance, Parts Assembly and Warehouse

Description:

- 15 Gauge high elasticity seamless knit
- 3/4 Black micro-foam nitrile coated palm and knuckle
- Excellent abrasion protection & dexterity
- Superior grip & durability

Item#	Color	Size	Qty/Cs
VS2261	Liner: Green Palm: Black	S-2XL	6 Dozen

Black Micro-Foam Nitrile Fully Coated

Application: Automotive, Construction, General Maintenance, Parts Assembly and Warehouse

Description:

- 15 Gauge high elasticity seamless knit
- Black micro-foam nitrile fully coated
- Excellent abrasion protection & dexterity
- Superior grip & durability

Item#	Color	Size	Qty/Cs
